### H1: Same-Day Dentistry — Cerec 3D Technology

Embedded YouTube video: 'Cerec 3D Technology - Leading Edge Dentistry'  
([youtube.com/embed/bTzkM6BE41s](https://youtube.com/embed/bTzkM6BE41s))

Technology today is changing our everyday lives. Many people, however, aren't aware that technology also is impacting dentistry in new and exciting ways. Cutting-edge innovations in dental instruments are requiring less time in the dental chair, causing less discomfort and creating satisfying results. One breakthrough instrument, called CEREC, allows dentists to quickly restore damaged teeth with natural-colored ceramic fillings, saving patients time and inconvenience.

#### Before/After Case Photos

- Case #1 image
- Case #2 image

#### What is CEREC?

CEREC is an acronym for Chairside Economical Restoration of Esthetic Ceramics — a dentist can economically restore damaged teeth in a single appointment using a ceramic material matching natural tooth color.

#### How does the instrument work?

CEREC uses CAD/CAM technology combining a camera, computer, and milling machine. The dentist takes an optical impression, designs the restoration on-screen, and the machine mills it while the patient waits. The whole process takes about one hour.

#### What does this innovation mean for a patient?

A tooth-colored, natural-looking restoration that's compatible with tissue, anti-abrasive, and plaque-resistant. No temporaries, lab impressions, or second visit needed. CEREC has over a decade of clinical research supporting its precision, safety, and effectiveness.

## 13. Juvederm

<https://www.advanceddentalofmonroe.com/juvederm-19.html>

**Meta Title:** Juvederm in Monroe Township, NJ

**Meta Description:** Get rid of those wrinkles with Juvederm. Call (732) 963-4700 for your next appointment!

AS-LIVE

### H1: Juvederm

Juvederm Injectable Gel is a safe, effective gel that restores volume to the skin and smoothes away moderate to severe facial wrinkles and folds. Juvederm is the first FDA-approved dermal filler proven safe and effective for persons of color. The Juvederm gel is made of hyaluronic acid with a smooth consistency, allowing for easy injections and instant, natural-looking results. There is no pre-testing needed for this procedure. Topical or injectable anesthesia may be used during this procedure to numb the treatment area and minimize any potential discomfort. The results of this procedure are available right away and can usually last for up to a year, the longest results available from any hyaluronic acid product.

## H1: Botox — 'It's Your Story, Tell It Your Way'

You've probably heard of BOTOX® Cosmetic, but did you know: it's the first and only FDA-approved treatment to temporarily smooth moderate to severe forehead lines, crow's feet lines, and frown lines in adults, and it's a one-of-a-kind formulation. So, if you're bothered by those deepening lines and have thought about treatment to temporarily reduce them, ask for BOTOX® Cosmetic by name.

Because only BOTOX® Cosmetic gives you BOTOX® Cosmetic results. Make it part of what you do — for you!

Includes manufacturer before/after imagery and a link to botoxcosmetic.com.
